

Pacific Friends Outreach Society Report for 2011

We are continuing our efforts to meet our mission and have the opportunity to work with a group in Fresno. They have property in the mid foothills about 4500 feet altitude that needs development. We are exploring ways to work together. We have conserved our finances and have met our legal responsibilities and are looking forward to this new possibility. In order to make more progress we are needing more Board members and some with younger ages would be very welcome. We are requesting an interest group at this summers Pacific Yearly Meeting Annual Gathering in order to give more information about this venture and keep everyone up to date on the new developments.

In Peace, Liz Baker clerk
