

Pacific Yearly Meeting's Unity with Nature Committee 2017 Mini-Grant Program Information and Application

The Unity with Nature [UwN] Committee's Mini-Grant program gives grants to worthy proposals by monthly meetings in Pacific Yearly Meeting [PYM] for Earthcare projects. The money come from UwN Special Projects Fund and are not from the PYM budget.

Unity With Nature Mini-Grants support Quaker projects having a primary purpose of benefiting the natural world and/or promoting ecological awareness and education in the community. Friends' organizations — whether a school, meeting or other group—are eligible to apply. Projects in which the Meeting (or other Friendly organization) matches the expenses and/or Partnerships with non-Quaker groups in the community are encouraged.

Please announce this opportunity to your Monthly Meeting and encourage Friends to apply for any relevant project in your Meeting that needs some additional, external funding to make it a reality.

* Mini-grants are for a maximum of \$300 for most projects, \$500 for a traveling environmental ministry scholarship. Grants are made to a Friends' organization, not to an individual.

* Deadline for application is June 15, 2017. Unity with Nature Committee will inform applicants of our decision by the beginning of the annual session in July, and make funds available shortly thereafter.

* The grants are to support activities or materials that would benefit the local environment or environmental awareness in the meeting. The possibilities are wide, limited only by your imagination. Examples are:

Obtaining super-efficient appliances (e.g. an on demand hot water heater)

Ingredients for an organic garden, tree-planting, or drought-resistant plants

Materials for ecological education (adult or children)

Trip costs or scholarship for an environmental project or workshop (environmental ministry)

Holding a locavore, zero-waste or similar sustainable event

Installing rainwater catchment or graywater irrigation

Activities involving meeting members and/or children are strongly encouraged, as are mini-grant projects which substantially involve the participants in their planning and completion. However, mini-grants are not intended to pay for services and labor by participants.
