

# Report from the Statistical Co-Clerks

Pacific Yearly Meeting Representative Committee, March 2017

My co-clerk Roscoe Mathieu, has laid down his duties and Nominating Committee will be bringing forward a mid-term replacement for your discernment and approval during this session.

What we do: The Statistical Clerk(s) maintains the official list of members of Pacific Yearly Meeting and assembles annual statistics of deaths, new memberships, and transfers or withdrawals of membership from constituent Monthly Meetings.

We also maintain the list of names of all of our Monthly Meetings and any Worship Groups under their care, so make sure we hear about all the new Worship Groups sprouting up out there.

With PYM's Annual Session returning to a July date this year, we can also return to traditional dates in our annual data collection process;

The end of PYM's Statistical Year is May 31, so the current range of data collection is June 1, 2016 through May 31, 2017.

The due date for returning Monthly Meeting membership changes to us is June 10, 2017.

Details will be provided in mailings (electronic where available) sent to Monthly Meeting's recording or statistical clerk by May 10, 2017, which will allow a month to gather and send the requested information back to us, with extreme gratitude to all Friends who respond early.

We also report that due to miscommunication in last year's membership numbers, eight (8) names were erroneously counted as members from Santa Barbara Monthly Meeting. The SBMM numbers (from 47 to 39) will be adjusted in the next report we submit at Annual Session in July, per our usual practice.

In Peace,

Don Bean
