

Representative to Friends World Committee for Consultation Report to Representative Committee 2019

SUMMARY

PYM's representatives will be attending the meeting of the FWCC Section of the Americas later in March near Kansas City, Missouri. The invitation says, "Come to Care for the Earth." The Friends World Committee for Consultation brings together Friends from all our four branches: Liberal, Conservative, Friends Church, and Evangelical. Its purpose is to help the different kinds of Friends get to know each other and grow in understanding and acceptance. One way we do this is by sharing a worldwide campaign to care for the earth. The concept began with the world gathering at Kabarak University in Kenya in 2012. There, a proclamation was made called the "Call of Kabarak." It urged all Friends around the world to work for the support of the environment. The section meeting will continue to move this work forward.

The representatives from PYM to FWCC are Jan Turner and Emelyn Buskirk (convener).
