

**Casa de los Amigos, Mexico City**  
**Hospitality Program Report to Annual Session 2019**  
**by Liz Resendiz, Hospitality Coordinator**

SUMMARY

The concept of hospitality promotes and encourages values of peace, social integration and community. Values that are integral to life at the Casa de los Amigos and whose practice is essential to its philosophy, activities and social objectives.

The income generated by the Casa's Hospitality Program enables the ongoing use by diverse individuals and organizations of on-site facilities, such as the Heberto Sein Conference Room, The Jorge Fox Library and the guest lounge, patio and dining room. As the Casa builds new relationships and alliances, and strengthens existing ones, both economic contributions and the donation of time and energy enable the implementation of new proposals and open up new opportunities for collaboration.

In 2018, the Casa welcomed over 1,266 refugees, migrants, asylum seekers and paying guests, along with 2,465 individual visitors and 32 groups and International organizations.
